Summary

Hi, I am a full-stack developer with 1+ years of experience. I am doing my Master's in Computer Application. I have completed my web development bootcamp from Udemy. Though I have worked on both frontend and backend technology, backend has been my core field of interest so far. I use MongoDB, Express.js, React.js, Node.js, and Bootstrap for building full-stack projects. I am also familiared with the git version control system.
